

LABOUR MARKET INFORMATION

COVENTRY & WARWICKSHIRE

Parent & Student Guide

What is Labour Market Information and how will it help me?

In this guide the WCG Careers Team have brought together useful sources of LMI, at both a local, regional and national level as well as information about the range of different vocational sectors that our students are working in.

LMI or Labour Market Information is collected by a variety of organisations, including national and local government departments and agencies, employer and professional organisations, trade unions and sector skills councils.

It can help inform our educational and work based careers decisions by outlining:

- *Where jobs are located*
- *The current size of industrial sectors and the changes that may come about in the coming years*
- *Where there are potential shortages or oversupply of potential employees*
- *The salaries that can realistically be expected in different sectors and locations*
- *The skills that employers are looking for*
- *The different entry routes in jobs, careers and sectors*

Crucially for young people, LMI also covers future demand – what kinds of jobs will be in demand after leaving college? and what kinds of skills will be needed in the future?

Coventry & Warwickshire LMI

Jobs by sector:

This chart illustrates the breakdown of sectors in which people in Coventry & Warwickshire are employed

Employment Rate:

% of total population aged 16-64 (working age population)

This chart illustrates that 77.5% of the population in Coventry & Warwickshire are employed, which compares favourably with the overall UK figure
